We are 60 families of 3rd generation winegrowers from a village of wine tradition, where only vines, almond and olive trees grow.

A vineyard rooted in history and the land, which is the winery's most valuable heritage.

We work the vineyard from sustainability and respect for its natural cycle, with the application of natural treatments and minimal impact techniques to make wines that feel good to people.

We make village and small farmer wines that contribute to sustainable rural development and guarantee fair trade.

Castell d'Or is a union of 16 cooperative wine-elaborating cellars from Catalonia. Our winery specializes in elaborating cava and other sparkling wines (non-alcohol sparkling, wines made with Charmat method, etc), but we also produce still wines from different appellations of Catalonia. We represent 2.200 farmer families who work more than 6.000ha of vines. Nevertheless, we stay regional, in contact with our land and local people. We produce wine only from the grapes we grow!!! Wine is born in the field, so we control the process initially. Furthermore, having vineyards in different climatic zones allowed us to plant each grape variety in the most suitable conditions to get the best possible result. The winery has IFS certificate, and a big part of our vineyards is organic. All products are certified vegan.

ANTONIO ÁLVAREZ JAMONES is a family-run business located in Trevélez, Granada. We use traditional craft methods for curing our ham, under the Protected Geographical Indication scheme (I.G.P. in Spanish) "Trevélez Ham".

We have been following and maintaining traditional procedures for natural curing, adding nothing but sea salt to the ham, for nearly two centuries. The drying, ageing and sweating process is done naturally, "in the fresh air", taking advantage of the cold, dry climate of the Mulhacen mountainside in the Sierra Nevada National Park, without using controlled protective atmosphere equipment. All this makes us a SUSTAINABLE MANUFACTURING company with high QUALITY MANAGEMENT standards, as proven by our ISO 14001 Environmental Management and superior level IFS certifications.

This winery stands out for the excellence of its wines, which genuinely reflect a deep-seated love for family life, the vineyard, and the art of winemaking.

Through laborious effort, this renewed vision has succeeded in establishing 56 hectares of vineyards, traditionally cultivated on the south slope of a gentle hill called Santana, With 115,000 plants and producing a total of 240,000 bottles, distributed as 180,000 bottles of young red, oak-aged, and crianza wine, 50,000 bottles of white wine, and 10,000 bottles of rosé wine.

Success is the end result of a job well done, and in this 21st century, an underground winery has been constructed to maintain a constant temperature naturally and reduce the carbon footprint. In this space, magnificent single-varietal wines are crafted from their own vineyards: Malvasia and Sauvignon Blanc for whites, Tempranillo, Graciano, Syrah, and Cabernet Sauvignon for reds, and Garnacha tinta for rosé.

HERMANOS HOYOS is a family business dedicated to the production of Iberian ham and sausages in an artisanal way. We have a long history in the pork sector, rooted in traditional artisanal methods and knowledge originated in La Alberca (Salamanca), a region which enjoys the exceptional climate of the Las Batuecas Sierra de Francia Natural Park (Biosphere Reserve).

At Hermanos Hoyos we offer a wide range of Iberian products with Designation of Origin of Guijuelo. Our production facilities in La Alberca, receive the best Iberian pigs from the pastures of Salamanca and Extremadura.

After a rigorous quality analysis and sanitary control, complementing those carried out at origin, we produce hams and sausages respecting traditional palates and the most appropriate curing periods for each product. For centuries, we have known that eating well should be the rule, not the exception.

Marcial Castro, tradition, essence, character and wisdom. Dedication to Iberico products through five generations. Our history dates back more than 100 years.

At the start of the 1980s, the Marcial brand made its first appearance, with a clear objective in mind: the highest quality, with meticulous control of each and every one of the processes: from the rearing of the animal, its slaughter, cutting and manufacturing of all the products.

Cutting-edge technology is present at Marcial in the form of modern installations and machinery, the necessary resources which make us competitive in the Iberico meat industry and allow us to meet current quality controls and certifications with ease.

The Toni Beneito winery is the continuation of the legacy of the old winery founded in 1880 in El Cabeço de Bocairent, Valencia, at about 850m above sea level. Modern facilities, but steeped in history, where artisanal wines are made with ancestral, cultivated, matured grape varieties. This takes place in the shadow of the Sierra de Mariola, where the winery draws inspiration from its surroundings, channeling the essence of the Clariano area into each bottle.

Rooted in tradition but open to innovation, this winery represents the convergence of past and present. By cultivating and vinifying local varieties, Toni Beneito celebrates the region's rich wine tapestry, preserving ancestral flavors and techniques and infusing them with a contemporary twist.
